APPENDIX TO PART 971—METHODOLOGY OF  
COMPARING COST OF PUBLIC HOUSING WITH  
COST OF TENANT-BASED ASSISTANCE

AUTHORITY: Pub. L. 104-134; 42 U.S.C. 3535(d).

SOURCE: 62 FR 49576, Sept. 22, 1997, unless otherwise noted.

**§ 971.1 Purpose.**

Section 202 of the Omnibus Consolidated Rescissions and Appropriations Act of 1996 (Pub.L. 104-134, approved April 26, 1996) (“OCRA”) requires PHAs to identify certain distressed public housing developments that cost more than Section 8 rental assistance and cannot be reasonably revitalized. Households in occupancy that will be affected by the activities will be offered tenant-based or project-based assistance (that can include other public housing units) and will be relocated, to other decent, safe, sanitary, and affordable housing which is, to the maximum extent practicable, housing of their choice. After residents are relocated, the distressed developments (or affected buildings) for which no reasonable means of revitalization exists will be removed from the public housing inventory.

**§ 971.3 Standards for identifying developments.**

(a) PHAs shall use the following standards for identifying developments or portions thereof which are subject to section 202’s requirement that PHAs develop and carry out plans for the removal over time from the public housing inventory. These standards track section 202(a) of OCRA. The development, or portions thereof, must:

(1) *Be on the same or contiguous sites.* (OCRA Sec. 202(a)(1)). This standard and the standard set forth in paragraph (a)(2) of this section refer to the actual number and location of units, irrespective of HUD development project numbers.

(2) *Total more than 300 dwelling units.* (OCRA Sec. 202(a)(2)).

(3) *Have a vacancy rate of at least ten percent for dwelling units not in funded, on-schedule modernization.* (OCRA Sec. 202(a)(3)). For this determination, PHAs and HUD shall use the data the PHA relied upon for its last Public Housing Management Assessment Program (PHMAP) certification, as reported on the Form HUD-51234 (Report on Occupancy), or more recent data which demonstrates improvement in occupancy rates. Units in the following categories shall not be included in this calculation:

(i) Vacant units in an approved demolition or disposition program;

(ii) Vacant units in which resident property has been abandoned, but only if State law requires the property to be left in the unit for some period of time, and only for the period stated in the law;

(iii) Vacant units that have sustained casualty damage, but only until the insurance claim is adjusted; and

(iv) Units that are occupied by employees of the PHA and units that are utilized for resident services.

(4) *Have an estimated cost of continued operation and modernization of the developments as public housing in excess of the cost of providing tenant-based assistance under section 8 of the United States Housing Act of 1937 for all families in occupancy, based on appropriate indicators of cost (such as the percentage of total development cost required for modernization).* (OCRA Sec. 202(a)(5)).

(i) For purposes of this determination, the costs used for public housing shall be those necessary to produce a revitalized development as described in the paragraph (a)(5) of this section.

(ii) These costs, including estimated operating costs, modernization costs and accrual needs must be used to develop a per unit monthly cost of continuing the development as public housing.
